INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/JP03/04706

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-28 ,	YES
	Claims		NO
Inventive step (IS)	Claims	1-28	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-28	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

The ISR cites the following documents 1-3.

Document 1: WO, 2002-100356, A1 (Shin-Etsu Chemical Co., Ltd.)

Document 2: WO, 98-54255, A1 (Shiseido Co., Ltd.)

Document 3: JP, 4-321618, A (Osaka Organic Chemical Industry Ltd.)

Document 1 discloses an acryl-silicone-based copolymer having the same hydrolyzable silyl group as that of the present application, but the said copolymer is used as a surface treating agent for cosmetic powders and is not intended for being directly mixed in a hair cosmetic. Furthermore, since the powder treated on its surface with the said copolymer is heat-treated, it is considered that the properties of the copolymer are changed.

Therefore, the subject matters of claims 1-28 of the present application appear to be novel and to involve an inventive step in view of document 1.

Documents 2 and 3 respectively disclose that a copolymer with an acrylic monomer containing a hydrolyzable silyl group as a comonomer has been mixed as a hair cosmetic ingredient, but neither disclose nor suggest the mixing of the acryl-silicone-based copolymer of the present application.

Therefore, the subject matters of claims 1-28 of the present application appear to be novel and to involve an inventive step in view of documents 2 and 3.
